

Methylation profiling report

Supplier information

Sample identifier:	sampleName1573942920
Sentrix ID:	203057710009_R06C01
Material type:	KRYO DNA
Gender:	NA
Supplier diagnosis:	-

Automatic prediction

Array type:	EPIC	
Material type:	KRYO DNA	✓
Gender:	female	!
Legend: ✓ OK ! Supplier information or prediction not available ✗ Warning, mismatch of prediction and supplier information		

Brain tumor methylation classifier results (v11b4)

Methylation classes (MCs with score ≥ 0.3)

methylation class infantile hemispheric glioma

Calibrated score	Interpretation
0	Very low
1	Low
2	Low to moderate
3	Moderate
4	Moderate to high
5	High
6	Very high
7	Very high
8	Very high
9	Very high
10	Very high

0.84	no match
------	----------

Legend: ✔ Match (score ≥ 0.9) ✘ No match (score < 0.9): possibly still relevant for low tumor content and low DNA quality cases. ● Match to MC family member (score ≥ 0.5)

Class descriptions

Methylation class infantile hemispheric glioma: The methylation class "infantile hemispheric glioma" comprises tumors with widely varying morphology, commonly including features more typical of higher grade lesions especially glioblastoma. These tumors are located supratentorially, all cases so far were observed in infants; median age is 0 years (age range 0 to 1). Copy number alterations are scarce, and typical molecular features of this class are not currently known. The name given here is provisional.

Copy number variation profile

Depiction of chromosome 1 to 22 (and XY if automatic prediction was successful). Gains/amplifications represent positive, losses negative deviations from the baseline. 29 brain tumor relevant gene regions are highlighted for easier assessment.

(see Hovestadt & Zapatka, <http://www.bioconductor.org/packages/devel/bioc/html/conumee.html>)

MGMT promotor methylation (MGMT-STP27)

(see Bady et al, J Mol Diagn 2016; 18(3):350-61)

Disclaimer

Classification using methylation profiling is a research tool under development, it is not verified and has not been clinically validated. Implementation of the results in a clinical setting is in the sole responsibility of the treating physician. Intended for non-commercial use only.
